

VOICE & PRESENTATION SKILLS

As a Member of Parliament it is vital to have the ability to present ideas, arguments, and propositions with *ease, clarity, expression* and *confidence*.

Based on more than 30 years of working nationally and internationally with a wide range of professional clients in theatre, business, politics and education, Dr Bert van Dijk has developed a unique program to develop and enhance your vocal and presentation skills in an effective and surprisingly short and enjoyable manner. The program offers strategies and resources that will help you to achieve: economy of breath, ease and clarity of delivery, connection with an audience and the ability to communicate ideas and content with truth, expression and passion. It also offers *personalised coaching* to realise your unique individual and professional goals and help you prepare for the effective presentation of questions, challenges and speeches – both planned and impromptu.

Having frequently worked with people in high public profile positions, Bert understands and respects the importance of confidentiality and discretion.

In order to achieve significant and lasting results, it is essential that participants commit to a minimum of three 1-hour sessions.

Cost of the initial 3 sessions (incl. resources): \$600.00

Subsequent coaching sessions available on request if and when the need arises

Dr Bert van Dijk (PhD Theatre, MA Psychology, Dip Drama) has extensively worked throughout Australasia, Europe, Asia and the Pacific as a psychologist, performing artist, educator, researcher and vocal & presentation coach. He is known for the stimulating and encouraging ways in which he is able to help people from all walks of life to transform and realise their potential beyond their wildest dreams.
